

## Garden Event

1-15-22, 12:30-2pm, In-Person, Mushrooms 101 with Connor Young and Josh McGinnis, Emerson Avenue Community Garden, Los Angeles (Westchester)

Description = Come learn (almost) everything about mushrooms! Connor Young and Josh McGinnis will tell us all about the amazing mushroom: what they truly are, their multiple health benefits and to how to grow them at home! Mushroom farmer and mycologist Connor Young is the founder of Westchester Farms where he grows several varieties of gourmet and medicinal mushrooms and explores the future of mushroom technology. He provides his culinary mushrooms to the Westchester Farmers' Market where he enjoys the many opportunities to speak with community members about the amazing world of fungi. Josh McGinnis is an independent scientist, researcher, and founder of EverymanBio. His areas of focus are in fungal genetics, bioprospecting, biotech accessibility, and empowering non-institutional scientists to find new biotech startups through independent research. Josh loves talking about fungi, especially molds, and teaching others how to make meaningful contributions to science.

Cost = Free

Location = Emerson Avenue Community Garden, 8050 Emerson Avenue, Los Angeles 90045
