

## Garden Event

1-29-22, 10am-12noon, Zoom, Creating Habitats at The Arboretum Crescent Farm with John Latsko

Description = Sometimes we garden for the wildlife! Creating opportunities for habitat, en masse, could help save species. Learn from examples in the Crescent, what you can do in your home garden or patio – to provide habitat for the many creatures that are beneficial to the garden. Let's contribute to securing their survival.

Price: Free for all attendees, registration is required – go to
