

Free Home Gardening Classes

6 Week Winter Semester
 Begins week of January 3rd
 All Adults 18 & over are welcome

Learn the fundamentals of horticultural science as it applies to the home gardener. Instruction will be provided on design, plant propagation, pruning, fertilizing, pest management, etc. of houseplants, ornamental plants, and fruits and vegetables, with an emphasis on organic gardening.

Meet at local City Senior Center locations

The hands-on Friday lab class meets at the
Sustainable Garden site on the Mt. SAC Campus Farm

**Contact class instructor for online registration
 or if you have questions**
