

Garden Event

10-17-20 and 10-24-20 and 10-31-20, 3-part Regenerative Winter Vegetable Garden Zoom Workshops with Erin Riley

Days and Dates = Saturdays, 10/17, 10/24, 10/31

Time = 9am

Name of Event

Regenerative Winter Vegetable Gardening Zoom Workshops

Description = Each workshop can be viewed independently, but all three will give you the best picture. Our workshops are normally 3 hours long, but no one wants to sit in front of their screen for that long, so I've split our "normal" workshop into 3 one-hour workshops. If you miss the workshop or can't make the times work, we can send you a link to the recording. After each hour workshop, you can hang out with Erin online for an informative Q & A. Bring your garden questions and concerns. The curriculum is as follows:

- * October 17th: Best practices overview for organic, vegan, regenerative and biodynamic gardening / starting seeds indoors / full low-down on herbs & greens
- * October 24th: Soil-building, composting, fertilizers & soil amendments / companion & pollinator planting / full low-down on brassicas, onion & garlic
- * October 31st: Maintaining the winter vegetable garden / disease and pests/ using remedies, supports and row covers / full low-down on root vegetables and all the veggie outliers

Cost = \$10 per class

Register for each class separately = <https://www.eventbrite.com/e/hope-gardens-regenerative-winter-vegetable-garden-workshops-tickets-124635071855>
