

## Garden Event

10-6-22, 5:30pm, Zoom, Healthy Soils to Support Native Plants in Drought

Description = California Native Plant Society hosts Dave Phelps, Landscape Architect and Educator with Garden Enlightenment. We've got the dirt on what makes . . . well, dirt, healthy. Soil health is defined as the continued capacity of soil to function as a vital living ecosystem that sustains plants, animals, and humans. Healthy soil gives us clean air and water, as well as healthy plants. Learn how healthy soil supports a healthy landscape, especially during drought, and get some actionable tips for managing soil health.

Cost = Free
