

## Garden Event

2-24-24, 1-4:30pm, Soil Safari with Nance Klehm, Arlington Garden, Pasadena 91105

Description = “Learn about place by understanding soil!” In this hands-on soil science class, we will learn basic soil science assessment methods and put our knowledge to work in several areas of Arlington Garden by examining, assessing and documenting the soils underfoot. Participants will learn and practice using assessment methods for soil texture, aggregation, composition, and percolation. Nance Klehm is an internationally recognized ecological systems designer, landscaper, and horticultural consultant based in Chicago and the Driftless Region of Illinois. She is the founder of Social Ecologies, a land service and restoration provider specializing in building what they refer to as “regenerative systems” through engagement with the surrounding community. Klehm is a prolific writer and author of *The Soil Keepers: interviews with practitioners on the ground beneath our feet*. Her past and current clients include Huntington Library and Gardens, Metabolic Studio, and Whitney Museum of American Art.

Cost = Tiered pricing, \$60-\$90. Sign up at <https://www.eventbrite.com/e/soil-safari-w-nance-klehm-tickets-801847917707?aff=press>

Location = Arlington Garden, 275 Arlington Drive, Pasadena 91105
