

## Garden Event

3-30-24, 10am-12noon, Seed Swap, Panorama City 91402

Description = Black Thumb Farm and LA Compost present a Community Seed Swap. Join us for our first ever (and 🍀 annual) seed swap. Got saved seeds, seeds you won't be planting this season, or seeds you need to share? These can be seeds you purchased, seeds you've saved, or seeds you've been gifted. Fruits, veggies, California Native seeds, flowers, all welcome! Black Thumb Farm will be sharing sunflower seeds, harvested, cleaned and stored right here at the farm. We'll also be selling some of our flower and veggie seedlings that you can mix and match for your own custom 6-pack!

Here's how to participate:

1. Pre-package them in small shareable amounts (5-10 seeds/pack). Think little recycled paper envelopes, re-used ziplocs, reused small jars, etc.
2. Label them with the plant variety and your info -- this can be your email or IG handle, whatever makes you happy!
3. Bring 'em on over, ready to share alongside a story of how they came to be in your care!

We will provide refreshments, seating, and some tables to set all our seeds out.

Cost = This event is free to the public thanks to a collaboration with LAcompost! Donations welcome.
