Responsibilities

Recent years have seen a 40% increase in food insecurity within Los Angeles county alone - an appalling level of 1.5 million+ people in direct need of more immediate solutions. Unfortunately, this is but one of the many community challenges L.A. county has faced for quite some time. The good news is that it doesn't have to be this way. Bioregional GreenWorks endeavors to make a positive contribution toward a number of community challenges in L.A. county beginning with the Gift a Garden initiative - designed as a multi-benefit project with an aim of bringing a few new long-term, nature-based, solutions to the forefront.
