

## Garden Event

6-21-22 through 8-30-22, Online (no set day/time), Indoor Plants - Care and Maintenance, UCLA Extension Course

Description = Plants add color, texture, and warmth to indoor spaces. They improve air quality and add a natural and living element to a room's design. Whether you are looking to expand your indoor plant collection, just getting started with your first plant, or looking for answers to your many plant problems, this course focuses on the fundamental aspects of growing plants indoors. Instruction includes properly identifying fifty plants that do well in an indoor environment and their specific cultural requirements. The course of study also covers understanding indoor environments, which is fundamental when choosing plants that will have the most success. This course covers common indoor plant pests, diseases, watering techniques, artificial and natural lighting, humidity, temperature, etc.

Cost = \$650
