

Garden Event

7-17-22, 1-3:30pm, In Person, Northern Argentina Cacti and Succulent in Habitat with Gary Duke, Palos Verdes Peninsula

Description = South Coast Cactus & Succulent Society hosts Gary Duke from his travels to Northern Argentina last November 2021 showing 31 cacti genera and 15 succulent genera, including many species of *Gymnocalycium*, *Lobivia*, *Echinopsis* and *Tillandsia*, all native to Argentina. He even found the elusive *Yavia cryptocarpa* after much searching by his group. His talk will include some very interesting geological sites.

Cost = Free with Garden admission. Advance reservations required at <https://southcoastbotanicgarden.org/>

Location = South Coast Botanic Garden, 26300 Crenshaw Blvd., Palos Verdes Peninsula 90274.
