

Garden Event

9-20-22, 11am-12noon, In Person, Composting Basics Workshop with LA Compost, Pasadena

Description = Join LA Compost & Arlington Garden in Pasadena to learn why composting is important to the health of our soils, communities, and planet. This composting workshop will breakdown the essential elements of composting and answer burning questions you've always had such as, "Doesn't compost stink? Does it attract pests? Can I compost in a small space? Why is my compost bin not heating up?" and many others. You'll leave with a better understanding of your composting options and how you can use finished compost once the composting process is complete. Best suited for those wanting to learn more about the composting process or how to compost at home. Expert instructors Compost Hubs Program Manager Enjoli Ferrari and Compost Manager Maggie Smart-McCabe will be leading the workshop.

Cost = Free. Please register.
