

Garden Event

9-25-22, 10am-12noon, In Person, Blackeye Peas - Grow, Eat, Connect with Chef Denas Brummer and Master Gardener Kimble Deleon, Los Angeles 90012

Description = African American gardeners who like to grow crops with a deep cultural and historical significance might consider planting a patch of blackeye peas, a.k.a. cowpeas. Learn how blackeye peas came from Africa to the Americas. Sample some amazing blackeye pea dishes. Discuss how Angelinos might consider growing – and eating - this drought tolerant, nutritious, and delicious summer crop. Join us for a workshop on growing, cooking, and eating blackeye peas presented by Chef Dená Brummer and UCCE LA Master Gardener Kimble Deleon. Pick up some growing tips at the Healthy Soils Learning Garden located on the community garden site. "Growing Blackeye Peas," a collaborative effort between Planet Earth Observatory, UC Riverside, and Solano Canyon Community Garden.

Cost = \$10 suggested donation; no one turned away. Tickets are limited.

Location = Solano Canyon Community Garden, 545 Solano Ave, Los Angeles 90012 (Near Dodger Stadium)
