

Garden Event

9-29-22, 8-11am, In Person, University of California Landscape Plant Irrigation Trials Fall Open House, Irvine

Description = Participation entails evaluating the aesthetic quality of ~60 plants over a period of 60-90 minutes. The intended participants for this event are: Landscaping & Landscape Design Professionals, Nursery/Greenhouse Professionals, Water Conservationists, UC Master Gardeners. Participants should wear sturdy, comfortable shoes, as the fields are packed dirt. You may also want to pack sunscreen and wear a hat, as most plants are in full sun. Staff will provide participants with a ratings sheet, writing implement, and give general instructions upon arrival. Cold water will be provided.

Location = South Coast Research and Extension Center, 7601 Irvine Blvd, Irvine 92618-1201. There will be signs directing participants to parking areas and the research field.

Participation is voluntary, but registration is required.
